**APRIL 2004 STATUS OF FORCES SURVEY
OF ACTIVE-DUTY MEMBERS:
TABULATIONS OF RESPONSES**

**Defense Manpower Data Center
Survey & Program Evaluation Division
1600 Wilson Boulevard, Suite 400, Arlington, VA 22209-2593**

Acknowledgments

Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the April 2004 Status of Forces Survey (SOFS) of Active-Duty Members, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The SOFS program is conducted under the leadership of Anita Lancaster, Assistant Director for Program Management, and Timothy Elig, Chief of the Survey and Program Evaluation Division.

Policy officials contributing to the development of this survey included: William Carr, Saul Pleeter, Capt Angela Giddings, USAF, and Gwen Rutherford (Military Personnel Policy); Robert Howlett (Readiness); Jane Burke and Lin Porter (Military Community and Family Policy); and Susan Kelly (Plans).

DMDC's Program Evaluation Branch, under the guidance of Eric Wetzel, Branch Chief, is responsible for the development of questionnaires used in the SOFS program. The lead developer on this survey was Kristin Williams. In addition, she designed the unique presentation of complex items used in this tabulation volume. She was supported by Michael Ford and Zachary Horn, Consortium Research Fellows, in these efforts.

DMDC's Survey Technology Branch, under the guidance of James Caplan, Branch Chief, is responsible for converting surveys to HTML for the Web, monitoring survey administration, survey database construction and archiving, and all programming to code survey responses and produce clean analytic data for tabulations and briefings. The lead analyst on this survey was Laverne Wright, who was supported by Felicia Dehaney and Margaret Holland, Consortium Research Fellows. Data Recognition Corporation (DRC) performed data collection and editing.

DMDC's Personnel Survey Branch, under the guidance of Barbara J. George, Branch Chief, is responsible for sampling and weighting methods used in the SOFS program. Richard Riemer standardized the sampling and weighting methods that allow repeated surveys of the active-duty force and he applied those methods to this survey. The sample design was optimized using software developed for DMDC by RTI International. Bob Hamilton, Chief of DMDC's Programming Branch, and Carole Massey and Susan Reinhold, from his staff, provided programming support for the sampling and weighting tasks.

Mary Padilla and others from SRA International, Inc. created the Survey Reporting Tool that formatted and assembled this tabulation volume from analyses produced by SAS[®] macros developed by Richard Reimer. A team consisting of Laverne Wright, Survey Technology Branch, Kristin Williams, Program Evaluation Branch, and Felicia Dehaney, Michael Ford, Margaret Holland, Zachary Horn, and Julisara Mathews, Consortium Research Fellows, completed quality control for this tabulation volume.

a.	Need money for basic family expenses	296
b.	Desire for career	298
c.	Want extra money to use now	300
d.	Want to save money for the future.....	302
e.	Want independence.....	304
f.	Enjoy working	306
g.	Want to gain experience for future career.....	308
137.	Do you think your spouse's work skills are {Readily marketable} {Likely to be marketable} {May or may not be marketable} {Not likely to be marketable} {Not marketable}?	310
138.	On average, how many hours per week does your spouse volunteer in your community?	312

SPOUSE EDUCATION

139.	Is your spouse currently in a civilian school?.....	314
140.	What is the MAIN reason your spouse is not attending school?.....	316
141.	Is your spouse currently a part-time student or full-time student?	318
142.	What kind of civilian school is your spouse currently enrolled in?	320
144.	What is the highest degree or level of school that your spouse has completed?	322

FAMILY ACCESS TO TECHNOLOGY

- 145. Do you and/or your family have a home computer? 324
- 146. Do you have Web access at home? 326
- 147. Does your child/children use the family computer for homework? 328
- 148. Do you use the home computer for on-line distance education courses
(i.e., on-line adult/continuing education courses, vocational/technical
courses, college-level courses, or graduate school courses)? 330
- 149. Does your spouse use the home computer for on-line distance education
courses (i.e., on-line adult/continuing education courses,
vocational/technical courses, college-level courses, or graduate school
courses)? 332
- 150. How many college credits have you earned since joining the military? 334

TAKING THE SURVEY

- 151. Where did you take this survey? 336
- 152. Which of the following computers did you use to take the survey? 338

APRIL 2004 STATUS OF FORCES SURVEY OF ACTIVE-DUTY MEMBERS: TABULATIONS OF RESPONSES

Introduction to the Survey

The *Human Resources Strategic Assessment Program* (HRSAP), located at Defense Manpower Data Center (DMDC), consists of both Web-based and paper-and-pencil surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness [USD(P&R)]. These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community—active, Reserve, and civilian employees—on a wide range of personnel issues. The Web-based survey program, known as the *Status of Forces Surveys* (SOFS), provides timely data on active, Reserve, and civilian members. The paper-and-pencil surveys are used to obtain data on sensitive topics (e.g., sexual harassment) and from populations who have limited Internet access (e.g., spouses of active and Reserve members).

This report contains tabulations of responses from the active-duty SOFS Web survey conducted April 5 to May 10, 2004.¹ This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology,² and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.³

Survey Content

The topics covered in the *April 2004 Status of Forces Survey of Active-Duty Members* include those in the *Status of Forces Surveys of Active-Duty Members Long-Term Content Plan*. The long-term content plan is at page 363. As indicated in that plan, there is a series of questions that are included on all active-duty SOFS. These include overall satisfaction, retention intention, perceived readiness, stress, tempo, and permanent change of station (PCS) moves. In addition, questions were included on deployment, services for deployed members and their families, and expenses related to recent deployments. The survey was subdivided into the following seven topic areas:

¹ The first active-duty SOFS was conducted July 2002. Regular administration every four months (March, July, and November) commenced March 2003. The April 2004 survey was delayed one month to include additional topics.

² Details on survey methodology are reported by Riemer and Kroeger (2003) and DMDC (In preparation-b).

³ Refer to DMDC (In preparation-a) to view a screen-shot version of the survey as it appeared on the Web.

1. *Background Information*—Service, gender, paygrade, education, marital status, spouse employment status, race/ethnicity, dependents, and location (both geographic and on/off base).
2. *Satisfaction and Retention Intention*—Satisfaction with aspects of military life, overall satisfaction, likelihood to stay on active duty, and spouse/family support to stay on active duty.
3. *Tempo, Readiness, and Stress*—PCS moves, days worked overtime, time away from permanent duty station, the impact of time away on career intentions, individual and unit preparedness, and the level of stress in work and personal life.
4. *Compensation*—Satisfaction with various forms of military compensation; perceptions of overall financial condition, such as asset and debt ratio (income, total value of financial assets, mortgage and rent payments, vehicle loans and personal unsecured debt payments), interest rates on installment loans, financial problems, and saving habits; and satisfaction with military members' compensation relative to their non-military high school classmates' compensation.
5. *Child Care and Schools for Children*—Satisfaction with on- and off-base child care, preference for and amount spent on child care, and ratings of schools.
6. *Spouse Employment and Spouse Education*—Satisfaction with opportunities and time needed to find employment; ratings of qualifications and skills; hourly wage; income contribution to household; reasons for working part-time; description of how job was found; and importance of working. Information about educational level and satisfaction with academic classes.
7. *Family Access to Technology*—Use of home computers and Web access for on-line distance education courses and homework.

Population and Reporting Categories

The target population for all active-duty SOFS consists of active-duty members of the Army, Navy, Marine Corps, and Air Force, excluding National Guard and Reserve members, who (1) have at least 6 months of service at the time the questionnaire is first fielded and (2) are below flag rank. Results are presented for the total population, and also by a variety of reporting categories. To form the reporting categories for the tabulations, respondents are classified primarily by survey self-report. If the self-reported data are missing, then DMDC's Active Duty Master Edit File data, at the time of sampling, are used to impute the subgroup classification. Survey results are tabulated by: Service, paygrade, location, education level, race/ethnicity, family status, gender, officer/enlisted by gender, and Service by paygrade. Definitions for reporting categories follow:

- *Service*—The categories include *Army*, *Navy*, *Marine Corps*, and *Air Force*.
- *Paygrade*—The *Enlisted* subgroup includes all enlisted paygrades (E1 – E9). The *Officers* subgroup includes warrant officers (W1 – W5) and commissioned officers (O1 – O6).

Figure 1.
Geographic Locations Used for Analyses

- *Location*—Geographic locations are collapsed into geographic regions as defined by the *Department of Defense Worldwide Manpower Distribution by Geographic Area* (DoD Washington Headquarters Services, 2001). The primary classification distinguishes *Overseas* from *US (including territories)*. *US (including territories)* includes those respondents with permanent duty stations located in the 50 states, District of Columbia, Puerto Rico, and United States territories or possessions. Within the *Overseas* classification, two regions can be reported separately: (1) *Europe*, which includes countries such as Bosnia-Herzegovina, Germany, Italy, Serbia, and the United Kingdom; and (2) *Asia and Pacific*, which includes countries such as

Australia, Japan, and Korea. Housing locations are primarily based on self-report data. *On Base* includes living in or aboard ship, in barracks/dorm/BEQ/UEPH/BOQ/UOPH⁴ military facilities, or in on-base military family housing. *Off Base* includes living in military family housing off base, in privately owned or rented housing, or in privatized military housing. If the self-reported data are missing, then on base and off base are imputed from record data indicating whether the respondent does not or does qualify, respectively, to receive Basic Allowance for Housing (BAH) or Overseas Housing Allowance (OHA).

- *Education*—Respondents are classified based on self-reported educational attainment. *No College* includes anyone without some college credit. *Some College* includes those with some college credit, including a 2-year degree, but does not include those with a 4-year degree. *Four-year Degree* includes those with a 4-year degree and those with some graduate school, but no graduate or professional degree. *Graduate/Professional Degree* includes those with masters, doctorates, and first professional degrees (i.e., MA/MS/MEng/MBA/MSW/PhD/MD/JD/DVM).
- *Race/Ethnicity*—Respondents are classified based on self-reported categories that are consistent with requirements of the *Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity* (1997). *Total Minority* includes all persons marking one or more of the races other than White and/or marking that they are Spanish/Hispanic/Latino. *Non-Hispanic Black* includes persons marking only Black or African American and not reporting being Spanish/Hispanic/Latino. *Hispanic* includes anyone reporting being Spanish/Hispanic/Latino, regardless of how they answered the question on race.
- *Family Status*—Respondents are classified based on self-reported marital status, spouse employment, and legally dependent children (ages 22 and under). Except for *Working Spouse*, missing data can be imputed from record data.⁵ *Single* includes those who have never been married or are divorced/widowed and have not remarried. *Married* includes those who are married or legally separated. *With Child(ren)* includes those with dependent child(ren) aged 22 and under, regardless of where the child(ren) live(s). *Working Spouse* includes those members whose spouse is working as measured by the U.S. Census Bureau's *Current Population Survey* (CPS) questions, and those in military service. *Dual Service Spouse* includes military members married to (including separated from) another military member (active or Reserve components).

⁴ Bachelor/Base Enlisted Quarters, Unaccompanied Enlisted Personnel Housing, Bachelor Officers' Quarters, and Unaccompanied Officers Personnel Housing, respectively.

⁵ Because there are no administrative record data for working spouses, this category cannot be imputed.

- *Gender*—This category is self-explanatory.
- *Service by Paygrade*—The categories include each of the Services by enlisted and officer paygrade groups.

Survey Methodology

The survey administration process began on March 26, 2004, with the mailout of notification letters to sample members. This notification letter explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, additional e-mail and postal reminders were sent to encourage survey participation. Data were collected on the Web between April 5 and May 10, 2004.

Single-stage, nonproportional stratified random sampling⁶ procedures were employed to ensure adequate sample sizes for the reporting categories. The sample consisted of 33,414 individuals drawn from the sample frame constructed from DMDC's Active-Duty Master Edit File. Members of the sample became ineligible if they indicated in the survey or by other contact (such as telephone calls or e-mails to the data collection contractor) that they were not in active-duty service as of the first day of the Web survey, April 5, 2004 (.37% of sample).

Completed surveys (defined as 50% or more of the questions asked of all participants are answered) were received from 10,598 eligible respondents. The overall weighted response rate for eligibles, corrected for nonproportional sampling, was 39%. Data were weighted to reflect the population of interest. These weights reflect (1) the probability of selection, (2) a nonresponse adjustment factor to minimize bias arising from differential response rates among demographic subgroups, and (3) a poststratification factor to force the response-adjusted weights to sum to the counts of the target population as of the month the sample was drawn and to provide additional nonresponse adjustments.

Table 1 shows the number of respondents and the portion of total respondents in each reporting group. Also shown are the estimated number of members and the portion of total members in each reporting group. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number sampled, as well as differences in response rates.⁷

⁶ In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, members might be grouped by gender and Service (all male Army personnel in one group, all female Navy personnel in another, etc.). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. Weights are used so that groups are correctly represented in the analyses.

⁷ There is also a slight difference from treatment of missing data. Cases with missing data are included in counts of respondents but are excluded in population estimates.

Tabulation Procedures

Tabulations for each presented question from the survey are shown on a set of facing pages. The text of the question and response options are shown at the top of the even-numbered page, with only the question repeated on the odd-numbered page. To compress the width of columns in the tables, the response options are shown with a number, letter, or with DNA (i.e., *Does not apply*) and then that number, letter, or DNA is used as the column heading for the responses. The central feature of the tabulations is the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding.

Where an item lends itself to presentation as an average, that average is also shown as a number estimate and in a bar chart. The averages lend themselves to a quick scan for reporting groups that differ from other similarly defined groups. Where a true response continuum is available (e.g., number of children or number of nights away), the mean of that continuum is presented; in other cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple dichotomous response like *yes/no*, only one percentage is presented. In this case, the bar chart represents that percentage.

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it is reflecting item nonresponse, and the table notes that "Percent responding are Service members who answered the question."

Not all questions will apply to every respondent. Where possible, the Web survey is programmed to skip respondents over questions that do not apply to them. For example, Q34 (Where are you currently deployed?) does not apply to those who marked in Q33 that they were not currently deployed for 30 days or more. The notation to this question indicates the "Percent responding are Service members who answered the question and who were currently deployed for 30 days or more (Q33)."

The survey does not always skip questions that do not apply to the respondents. In the tabulations, *Does not apply* responses are typically included in the percentages in the *Percent Responding* column. For example, Q5 asked members to indicate how many years they had been in a relationship with their current significant other. Survey participants can indicate that the question does not apply. Q5 is also an example of where particular care has to be taken to interpret responses because Q5 was (1) within a skip pattern and (2) had an individual item response of *Does not apply*.

Combining Information From Multiple Items

Tabulations in this volume generally present data for individual survey questions. There are three types of exceptions. The first type of exception is where

the results for multiple items are presented on a single set of pages, for example, number of dependents and financially related problems.

- In Q15, members are asked how many dependents they have in each of six age ranges. For this question, the tabulations show the percentage of the reporting category with dependents in that age range. The averages shown on these pages are based only on those with at least one dependent and, therefore, show the average number of dependents for those who have dependents.
- Q104 asked members to indicate from a list of six financially related problems whether they had experienced the problem. The summary statistics shown on these pages are the percentages of those who experienced at least one of the problems.

The second type of exception is where members can provide multiple answers to a single question (i.e., race).

- In Q17, members are asked to mark one or more races. The tabulations show the percentage who responded that they were White, Black, American Indian/Alaska Native, Asian, and/or Native Hawaiian/Other Pacific Islander. Respondents who indicated more than one race are also shown in the percentage of More than one race marked. For example, if a respondent indicated they were Asian and White, they were counted in the percentage as Asian, White, and More than one race marked.

The third type of exception pertains to the composite measure for spouse employment, spouse/significant other support, and financially related questions.

- Spouse employment indicators are derived from Q6-Q12 and are modeled to be comparable to employment measures used in the U.S. Census Bureau's *Decennial Census* and *Current Population Survey* (CPS). Two sets of tabulations are presented. In the first set, labor force participation is shown for the spouses of those in the reporting category. The four categories contain percentages of (civilian) employed, unemployed, not in the labor force, and Armed Forces member. Those not in the labor force include those who are permanently or temporarily not working or not actively looking for work.⁸ The second set of data shows only those in the labor force. That is, the percent responding are married Service members who answered the items and whose spouses are in the labor force (civilian employed, unemployed but looking for work, and in the Armed Forces). The unemployment rates shown in these tables are the percent of those who

⁸ Those who have not actively looked for work in the past 4 weeks are considered to be out of the labor market. This category includes some percentage of spouses who are in the midst of a PCS move and, therefore, only temporarily out of the labor market.

need or want to work, and are unemployed. These rates are comparable to those reported monthly by the Bureau of Labor Statistics based on the CPS data.

- Q26 and Q27 on spouse and significant other support to stay on active duty are combined and reported as a single measure.
- Q67-Q69, Q70-Q72, Q73-Q75, Q76-Q78, Q79-Q81, Q83-85, Q88-Q90, and Q97-Q99 are combined and reported as individual measures. These financial questions allow the survey participant to answer a total figure or a range. For instance, survey participants have the option of answering Q67-Q69 by providing a specific dollar amount or by entering a range of “at least \$____, but no more than \$____.” To calculate the single measure, the total is used in place of the range if the total figure is greater than zero. When a respondent only provides the range, the average of the range is calculated and used as their response to the question.

Standard Coding Procedures

DMDC implemented new procedures (i.e., top coding) for coding financially related open-ended data to minimize bias and preserve confidentiality. The following steps summarize the top coding procedure. Within enlisted and officer paygrade groups, the value of the top 1% of weighted cases is compared with the value of the top 3% of the unweighted cases. If the value of the top 1% of weighted cases is higher, then weighted top coding is used and the value of the top 0.5% of the weighted cases is assigned to all values above the top 1% of weighted cases. If the value of the top 3% of unweighted cases is higher, then unweighted top coding is used and the value of the top 1.5% of the unweighted cases is assigned to all values above the top 3% of unweighted cases.

Margins of Error

The complex sample design required weighting to produce population estimates, such as percentages.⁹ This also means that the typical rules of thumb for interpreting how good an estimate is, such as the number of respondents, will overstate the reliability of the estimate. For this report, variance estimates were calculated using SAS[®] PROC SURVEYMEANS.

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the variance around population parameters, such as percentages or means, and are used to construct margins of error (i.e., confidence interval half-widths). Percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only

⁹ This differential weighting means that only certain statistical software procedures, such as PROC SURVEYMEANS, correctly calculate standard errors, variances, or tests of statistical significance.

the maximum margin of error (Max ME) for the percentages in the row is shown. That is, the margin of error is calculated for each response option percentage and the largest of these is printed. For each average shown in these tabulations, its margin of error is also printed.

Estimates may be unstable based on a small number of observations or relatively large variance in the data or weights. Particularly unstable estimates are suppressed or annotated in these tabulations. The following rules are used:

- “0” indicates that no one in any reporting group selected the response option,
- “NR” indicates the estimate is Not Reportable because it was based on fewer than 30 respondents or the relative standard error was high,
- “NA” indicates the response option was Not Applicable for the reporting category because it was not selected by any respondent in that category,
- no Max ME is printed when all percentages in the row are shown as “NR,” and
- no margin of error is printed for an average when it is shown as “NR.”

April 2004 Status of Forces Survey of Active-Duty Members

[RCS#DD-P&R\(AR\)2145](#)

[Exp.05/23/2005](#)

Welcome!

Thank you for visiting this Web site now to update information useful in the survey administration. Information requested now is not the actual survey - be sure to come back later (on or about 5 April) to do the actual survey. When you click the Continue button below, you will be asked to:

- Read the Privacy Act Statement if you choose.
- Review your contact information.
- Provide your e-mail address(es) so we can communicate with you about the survey.

Thank you, again, for your time and participation.

PRIVACY ACT STATEMENT FOR STATUS OF FORCES SURVEYS

In accordance with the Privacy Act, this notice informs you of the purpose of the Status of Forces Surveys and how the findings of these surveys will be used. Please read it carefully.

AUTHORITY: 10 United States Code, Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in this survey will be used to report attitudes and perceptions about personnel programs and policies. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Office of the Secretary of Defense, each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. In no case will the data be reported or used for identifiable individuals.

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. There is no penalty if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by persons engaged in, and for purposes of, the survey research.

SECURITY PROTECTION ADVISORY

WEB SITE PRIVACY: The Department of Defense and Data Recognition Corporation will collect no personal information about you when you visit this Web site unless you choose to provide it yourself. If you supply us with personal information, it will be treated as confidential.

In addition, our system does not enable "cookies," which are files placed on your computer's hard drive in order to monitor your use of the site or the Web. For more information about your privacy rights, please read the Privacy Act Notice at the start of the survey.

This Web site does gather and store certain data from your visit. This non-personal information makes the site helpful to you by recognizing the types of technology you use. The data collected appear below:

1. Your Internet host or domain (for example, "youragency.mil" if you connect from a military domain; "yourschool.edu" if you connect from a university's domain; or "yourcompany.com" if you use a private Internet access account). Other examples of domains are compuserve.com and aol.com.
2. Your Internet Protocol (IP) address (for example, www.compuserve.com, www.aol.com, 122.3.55.34). Depending on your Internet service provider, IP addresses may identify your computer; in other cases, they identify no more than your Internet service provider (such as AOL or Earthlink). This is stored for troubleshooting technical problems.
3. The type and version of the browser and operating system you use to access our site.
4. The date and time you access this site.
5. The pages you visit.

None of this information will be revealed publicly or used to identify you.

ABOUT THIS QUESTIONNAIRE

What is the Status of Forces Survey (SOFS) Program?

- SOFS is a Department of Defense (DoD) personnel survey program that features short, Web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness.
- These surveys enable the DoD on a regular basis to quickly and accurately gauge the attitudes and opinions of the entire DoD community – active duty or Reserve component members and spouses, and DoD civilian employees – on the full range of personnel issues.

Why should I participate?

- This is your chance to be heard on issues that directly affect you.
- Some examples of topics include: quality of life, retention, retirement, and satisfaction.
- Your answers on a survey make a difference. For example, results from previous surveys have played an important role in deliberations on pay rate adjustments, cost of living and housing allowances, and morale and retention programs.

How do I participate?

- To participate, you are asked to (1) read the Privacy Act Statement if you choose, (2) verify contact information, and (3) provide us e-mail address(es) so we can notify you when the survey is ready. We would appreciate your doing this step now. To participate now, click the Continue Now button.

How did you pick me?

- We use well-established, scientific procedures to select a sample that represents the Defense community.
- This sampling procedure sets up clusters of people based on combinations of demographic characteristics (e.g., Service, rank, etc.).
- You were selected at random from one of these clusters of people.

Why am I being asked to use the Web?

- Web administration enables us to get survey results to senior Defense leaders faster.

Why are you using a .net instead of a .mil domain to field your survey?

- When the SOFS program was established, a .net domain was chosen for two reasons.
 1. The SOFS operations contractor, Data Recognition Corp., consolidates both Web and paper survey data for DoD and it is more efficient for the Government to collect it at their single site.
 2. This makes it as easy as possible for everyone to access the survey, even from a non-government computer.

Do I have to take the survey in one sitting?

- No, it is not necessary to complete the survey in one sitting. Just click the "Save and Return Later" button and the work you completed will be saved.
- When you return to the survey, merely enter your Ticket Number again. Entering your Ticket Number will bring you to the place in the survey where you had stopped.

Why does the survey ask personal questions?

- The Defense Manpower Data Center (DMDC) traditionally reports not only overall results, but also results by race/ethnicity, paygrade, etc.
- To complete these analyses, we must ask respondents for this type of demographic information.
- Analyzing results in this way provides Defense leaders information about the attitudes and concerns of all subgroups of personnel (e.g., enlisted/officer, males/females) so that no groups are overlooked.
- Sensitive questions are sometimes also asked about topics like personal finances. Such information will be used to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

Will my answers be kept private?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- Only group statistics will be reported. Individual data will not be reported.

Will I ever see the results of the survey?

- This survey's briefings and reports will be posted on the following Website:
<http://www.dmdc.osd.mil/surveys/>
- When you complete a survey, you can request to be notified by e-mail when results are posted on the Web.

What is DMDC?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in DoD. It also conducts Joint-Service surveys and operates the Status of Forces Survey Program for the DoD. To learn more, visit the DMDC web site:
<http://www.dmdc.osd.mil/>

How do I know this is an official, approved DoD survey?

- In accordance with DoD Directive 8910.1, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for the SOFS is DD-P&R(AR)2145, expiring 05/23/05.

What is ADSurvey@osd.pentagon.mil?

- The official e-mail address for communicating with active-duty members about Status of Forces Surveys. The name is short for Active-Duty Survey.

How to Contact Us

- If you have questions or concerns about this survey, you have three ways to contact the Survey Operations Center:
Call 1-800-881-5307
Or
E-mail us using the following link: ADSurvey@osd.pentagon.mil
Or

Status of Forces Surveys of Active-Duty Members Long-Term Content Plan

The long-term content plan outlines a six-survey, 2-year cycle of content coverage. In addition to this coverage, there are a series of measures that are included on all surveys. These include outcome measures [i.e., overall satisfaction, retention intention, perceived readiness, and stress that also are potential “leading indicators” and moderators (e.g., tempo and PCS moves)]. There is also space on all surveys for additional items of interest at the time of administration.
